WHEAT HAS IMPROVED SINCE APRIL 1.

Only Feature of the Day's Trading Is the Absence of the Persistent Manipulation of American Tobacco Common Stock.

While the Government Winter wheat crop report favored sales of the Granger stocks, the action of wheat to-day indicated that the condition of the cereal has improved since April 1, when the Government statistics are compiled. A prediction of a heavy rainfall for forty-eight hours throughout the entire wheat belt, if fullified, would also add to the improvement.
